

### ...Caring

“Few things are impossible to diligence and skill. Great works are performed not by strength, but perseverance.”

Samuel Johnson

The professionals at Achievekids give our students the tools they need to function and work independently.

Because there is not a high employee turnover rate that some schools have, we create a strong sense of community and consistency that help our students thrive.

### ...Creativity

“Never, never, never quit.”

Winston Churchill

The experienced counselors at Achievekids are frequently attending training sessions to give them fresh ideas and strategies for helping our students and clients cope with the daily challenges they face. Clinical Director Jeanette Glasser, a licensed clinical social worker and 18-year Achievekids veteran, says “We’re always trying to increase our bag of tricks.”

Our teachers also spend a great deal of time refining their teaching strategies and will consult with outside service providers for student issues that require special attention.

We do whatever it takes to help all of our kids.

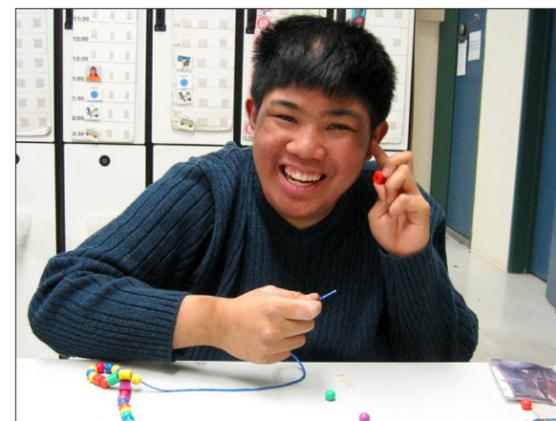

### ...Courage

“It’s always too early to quit.”

Norman Vincent Peale

Many of our students are considered tough cases. Some have tried other learning environments and have been turned away. Some institutions won’t work with our kids because of their reputations.

We have over 40 years of experience creating individual academic and therapeutic programs for these tough cases. We offer hope to our kids. We help repair broken families.

At Achievekids, no child is a lost cause.

**No child is beyond help.**

“In the middle of every difficulty ...lies opportunity.”

Albert Einstein
