

Nemschoff Introduces Stylish New Products

Sophia and Marsack II bring sophistication to any waiting room

SHEBOYGAN, WI – January 1, 2004 – Nemschoff proudly announces two fresh additions to their superior catalog of healthcare furniture—Sophia and Marsack II lounge seating. These new products are created to add style and comfort to any setting.

The Sophia lounge chair's unique combination of curves and straight lines will give a unique, artistic touch to any waiting room. With its simple wood arm caps and stainless legs, this elegant design seats one to three in style.

Nemschoff's Marsack II lounge seats combine high design with low maintenance. Available in one-, two-, and three-seat configurations, these chairs have functional laminate arm components and urethane arm caps to keep upkeep to a minimum. Nemschoff also offers coordinating benches to make this line complete.

Both of these products are made from solid maple, have spring seat construction and are available with removable seat covers. Backed by the Nemschoff Lifetime Warranty, the Sophia and Marsack II are both durable and attractive.

Since 1950, Nemschoff has manufactured seatings, tables, and casegoods specifically for the healthcare industry. They have become the country's leading healthcare specialist through their high-quality products and concern for patients' needs.
